

EARTH WEEK ACTION TOOLKIT

A guide to spark your creativity

There are [a million ways](#) to get your classmates to join the movement for climate justice. Here's a model of how you could use Earth Week to get new people to take action with you.

MONDAY: LIGHTS OUT

[Link: Tips for Lights Out Day](#)

Keeping the lights off at your school for one day can save one metric ton of carbon! And just as important, it's a great way to get your school's attention to kick off Earth Week. Get teachers on board, and get on the announcements to explain what your school is doing.

TUESDAY: VEGETARIAN FEAST

[Link: Tips for this day](#)

Make it deliciously irresistible to eat vegetarian at lunch today. More than 7% of global carbon emissions come from the meat industry! Plan a potluck or just eat the veggie option at your cafeteria. Give treats to anyone who participates, and get their contact info for future actions!

WEDNESDAY: YOUTH CLIMATE JUSTICE SUMMIT

[Link: Find out more!](#)

Join hundreds of MN youth for a day at the Capitol, April 25, 8:15 a.m. - 2:30 p.m. Meet with the Governor and lawmakers and participate in workshops on how to take action in the future!

THURSDAY: WALK & ROLL

[Link: Tips for this day](#)

Organize carpools, bus rides, and bike brigades for a day without vehicles! Have a sign-in table with prizes for participants, and celebrate how many miles of driving you saved together by going car-free (or carpooling).

FRIDAY: CELEBRATE!

Have a smoothie party, watch a movie. Celebrate how much carbon you saved and dream about your next project.

Let us know how the week went!
