

Minnesota free from fossil fuels by 2040, with justice every step of the way.

Schools are a place for solutions.

- Make solar energy affordable for schools.
- Teach credible science, including climate change education.

No shortcuts for polluters.

- Oppose any attempt to short-circuit the PUC's oversight that protects Minnesotans.

Invest in a just, resilient future.

- Support clean energy that benefits working Minnesotans.
- Divest state money from fossil fuel industries.

No to fossil fuels.

- No new fossil fuel projects.
- No fossil fuel donations in our elections.

Close the equity gap.

- Prioritize clean energy benefits for frontline communities.
- Polluters pay for their damages.

APRIL 2018

Dear Governor Dayton,

As a young person, I urge you to lead on our vision for a just, clean energy future!

Sincerely,
